Our annual Christmas Eve Cocktail Party will get things off to a festive start and give people a chance to connect over drinks and light bites.

New Year's Eve here at the resort will be a time to eat, drink and be very merry with our Cirque du Bali event. A tantalizing 'Around the World' buffet will be paired with live music and fabulous entertainment. Ikan Restaurant will bid farewell to 2019 in true style with a sophisticated five-course dinner. Then we will be ringing in the New Year with a tropical party on the beach complete with live DJ music, dancing and fireworks.

Health conscious travelers will be invited to sleep well, move well, eat well, work well, play well and feel well through a collection of meaningful activities and events.

Another exciting happening is that Prego is about to launch a brand-new brunch concept. Bunch Infinito promises to be the ultimate long and lazy Sunday brunch with fabulous Italian food, colorful entertainment, activities galore and access to all of the resort's swimming pools and beach area.

Last but not least, in accordance to the Chinese zodiac we will be welcoming the Year of the Rat in January with a special Chinese New Year feast at Ikan Beach Garden. We'll be serving up an array of flavorful dishes that symbolize good luck. Every guest in attendance will receive a traditional red Ang Pao envelop with a small token inside to mark the occasion.

Chef Dwi Ariawan

In his role as Demi Chef de Partie, I Kadek Dwi Ariawan is a rising star on The Westin Resort Nusa Dua, Bali's culinary team. At just 24 years old, he demonstrates a level of creativity in the kitchen that goes well beyond his training. Dwi Ariawan has found his true calling in the pastry department and he is responsible for some of the sweet treats that can be experienced during our signature Afternoon Tea. Earlier this year, his artistic flair was recognized with a first-place win in a Doughnut Decorating Competition hosted by Bulgari Resort Bali.

Green Steps

The topic of sustainability has been steadily gaining prominence on the world stage, and plastic pollution has put Indonesia and Bali in the spotlight as one of the main contributors of ocean plastic waste.

At The Westin Resort Nusa Dua, Bali, we realized the gravity of the matter and made the decision to reevaluate our plastic goods consumption. Like most establishments in Bali, we had previously provided our guests with plastic straws, plastic/polystyrene takeaway containers and cutlery, and plastic-bottled water.

We then endeavored to find suitable alternatives through our vendors and other channels, and we set ourselves a deadline to convert our plastic dependent ways. A major event bringing in thousands of attendees from all over the world in October 2018 served as a great motivation to showcase our efforts.

We eliminated plastic straws from our operations prior to that event and moved to more eco-friendly takeaway containers and cutlery during the event – and we have never looked back.

On 23rd May 2019, we then moved from supplying water in plastic bottles in all our guestrooms to glass bottles; and all meetings and events at our Bali International Convention Centre followed soon after. This contributes to a reduction of roughly 2,000

plastic bottles that may end up in the ocean or a landfill per day.

Along with reducing our plastic waste, we have partnered with organizations to ensure we are “doing good” in all directions. An example would be our food rescue program with Scholars of Sustenance, where excess food from buffets is donated to needy communities in Bali.

We also offer teambuilding activities to our event planners that will benefit their organization and our community. We realize there is still plenty to be done but just as a journey of a thousand miles starts with a single step, we are also embarking on a more sustainable and environmentally-friendly path one step at a time. Here’s to a greener and better future for our generation and beyond.

Unlocking The Unspoken Talents of Students with Disabilities

During our many years of operation, the Management Team and associates of The Westin Resort Nusa Dua, Bali have carried out various social activities as part of an ongoing effort to help communities in need around the island. All of these initiatives are intrinsically tied to one of Marriott International's core values, "Serve Our World", which is all about doing good on a personal and professional level.

Some of our programs include providing life skill sessions and on-the-job training opportunities for students with disabilities in partnership with a local school for the disabled (Sekolah Luar Biasa No 1 Badung). This special needs campus is currently responsible for the education of 387 students who have a range of different disabilities such as auditory loss (deafness), down syndrome and autism. A total of 60 students reside in the school's dormitory, which is located onsite. The students learn in accordance to their personal interests and/or potential abilities. We are contributing by providing students with on-the-job training opportunities with an intense six-month program in the areas of Housekeeping, Stewarding, Culinary and Engineering. This partnership has been running continuously since 2005 (14 years) and to date, 121 students have completed their traineeship with us. Now, we are enhancing our partnership and contribution to the school by promoting the students' handicraft products.

If you would like to join us in unlocking the students' unspoken talents, you can purchase some of their gift items at our Resort Boutique in The Arcade. The school will use all of the proceeds to further support the students' learning needs. For them, nothing is too small.

Sharing is Caring

At The Westin Resort Nusa Dua, Bali, we proudly support Scholars of Sustenance (SOS), a food rescue foundation that collects and redistributes edible goods to help those in need. A significant amount of our excess food items (particularly what is left over from breakfast) is picked up on a daily basis, carefully sorted and then donated to local orphanages. This worthy project provides underprivileged children with a nutritious meal at the end of the school day.
